4676 Admiralty Way
Marina del Rey, CA 90292

RESEARCH INTERESTS

My research is on artificial intelligence: I study how to automatically learn common-sense knowledge from large-scale text and how reasoning with this knowledge supports natural language understanding.

EDUCATION

- | | | |
|-----------|--|--------------------------------|
| 2009–2014 | PhD, Computer Science
<i>Inferential Commonsense Knowledge from Text.</i>
Advisor: Lenhart K. Schubert.
Committee: James F. Allen, Daniel Gildea, Gregory Carlson. | <i>University of Rochester</i> |
| 2007–2009 | MS, Computer Science
Advisor: Lenhart K. Schubert. | <i>University of Rochester</i> |
| 2003–2007 | BA, Computer Science
Advisor: Nancy Ide. | <i>Vassar College</i> |

RESEARCH EXPERIENCE

- | | | |
|--------------|---|---|
| 2014–present | Postdoctoral Researcher
Engaged in DARPA-, IARPA-, and NIH-funded research on natural language understanding. This includes (1) acquiring abstract, symbolic knowledge to support communication with computers, (2) the multilingual, knowledge-based interpretation of metaphors, and (3) modeling the concepts in scientific publications and video lectures to support generation of pedagogical reading lists. <i>Supervisor: Jerry R. Hobbs.</i> | <i>USC Information Sciences Institute</i> |
| 2007–2014 | Research Assistant
Performed NSF- and DARPA-funded research in natural-language processing (NLP) and knowledge representation & reasoning (KRR). This research focused on the creation of tools to learn knowledge bases suitable for reasoning from large collections of text, but also included creating and evaluating lexical resources and directing junior students. <i>Supervisor: Lenhart K. Schubert.</i> | <i>University of Rochester</i> |

Summer 2008 **Visiting Research Assistant** *USC Inst. for Creative Technologies*
 Planned and created tools using latent semantic analysis (LSA) to automatically evaluate student essays for an intelligent tutoring system; ran experiments to train the system and test automated feedback. *Supervisor: H. Chad Lane.*

Episodic Logic: Natural Logic + Reasoning.

Karl Stratos, Lenhart Schubert, and Jonathan Gordon. In Proc. of the International Conference on Knowledge Engineering and Ontology Development (KEOD 2011).

Discovering Commonsense Entailment Rules Implicit in Sentences.

Jonathan Gordon and Lenhart Schubert. In Proc. of the EMNLP 2011 Workshop on Textual Entailment (TextInfer 2011).

Quantificational Sharpening of Commonsense Knowledge.

Jonathan Gordon and Lenhart Schubert. In Proc. of the AAAI 2010 Fall Symposium on Commonsense Knowledge.

Learning from the Web: Extracting General World Knowledge from Noisy Text.

Jonathan Gordon, Benjamin Van Durme, and Lenhart Schubert. In Proc. of the AAAI 2010 Workshop on Collaboratively-built Knowledge Sources and Artificial Intelligence (WikiAI).

Evaluation of Commonsense Knowledge with Mechanical Turk.

Jonathan Gordon, Benjamin Van Durme, and Lenhart Schubert. In Proc. of the NAACL 2010 Workshop on Creating Speech and Language Data with Amazon's Mechanical Turk.

Weblogs as a Source for Extracting General World Knowledge.

Jonathan Gordon, Benjamin Van Durme, and Lenhart Schubert. In Proc. of the International Conference on Knowledge Capture (K-CAP 2009).

PRESENTATIONS

Distribution and Inference.

With Jerry Hobbs. DSALT: Workshop on Distributional Semantics and Linguistic Theory at ESSLI, 15–26 August 2016. Submitted.

Towards Learning World Knowledge Suitable for Inference.

Reasoning with Text Workshop, 18–19 February 2011, USC Institute for Creative Technologies. Invited.

TEACHING EXPERIENCE

2008–9, 2013	Teaching Assistant	<i>University of Rochester</i>
	Assisted with graduate and undergraduate Computer Science classes, including lecturing, writing programming projects and labs, supervising undergraduate TAs, and grading homework and exams.	
Fall 2004	Lab Coach	<i>Vassar College</i>
	Ran introductory Computer Science labs, helping students program in Java and holding weekly office hours for questions.	

PROFESSIONAL ACTIVITIES

Site organizer, North American Computational Linguistics Olympiad (NACLO), 2017.

Program committee, Cognitum Workshop on Cognitive Knowledge Acquisition and Applications, 2015.

Program committee, AHA! Workshop on Information Discovery in Text, 2014.

Reviewer, AAAI Fall Symposium on Commonsense Knowledge (CSK 2010).

Meeting organizer, Seminar in Knowledge, Inference, and Language, University of Rochester.

SKILLS

Programming	Especially in Python and Common Lisp on Linux and macOS.
NLP tools	NLTK, MALLET, parsing, large-scale distributed processing.
Publication	Online (HTML and CSS) and print (\LaTeX).

January 2017
