

Directions to ISI and the Office of Pedro Diniz

If you come by taxi, ask to be dropped off at the Trizec towers in Marina del Rey. Most drivers are familiar enough with the Marina to know the location. If your driver is not, please refer to the map at the right and follow the instructions below depending wherefrom are you coming.

From ISI's Parking Lot to Pedro's Office

Once in the paid Parking lot (bring your ticket so that ISI can validate it), walk to the South Tower (where currently is a Washington Mutual Bank Branch) and take any of the elevators up to the 10th floor and ask the receptionist to call Pedro Diniz.

From LAX to ISI's Parking Lot

From LAX take Sepulveda Blvd. Northbound. If you are going under the LAX tunnel you are headed the opposite direction – just make a U-turn around the El Segundo Business area. Once on Sepulveda Northbound stay on the left-hand-side lanes to get on Lincoln Blvd. The leftmost lanes veer to the left and take you through Westchester crossing Highway 42 (Manchester Blvd). Follow Lincoln Blvd. through a commercial area that will lead you down a steep hill next to Loyola Marymount University (LMU). About a mile down the road you'll cross Jefferson Blvd. and enter the Marina area after going under a bridge. The first intersection after the bridge is Fiji Way. Try to make a left turn on Fiji Way but if you miss it you can make a left on Mindanao Way as well.

From US 101 or 405 South to ISI's Parking Lot

Driving South on the 101 take 405 South. After driving the Sepulveda pass (where the J. Paul Getty Museum is located) you cross the 10 Freeway and continue towards LAX. Take the Marina Freeway (US 90) exit Westbound. At the end of the 90 freeway you come to a third light where you make a left onto Lincoln Blvd southbound. See the figure for details on how to get to ISI's parking lot.
