

P. Thomas Vernier

MOSIS, Information Sciences Institute
University of Southern California
4676 Admiralty Way
Marina del Rey, CA 90292

Telephone: 1.310.448.8752 Fax: 1.310.823.5624
E-mail: vernier@mosis.com, vernier@usc.edu
Web: <http://www.isi.edu/~vernier/>

Education

- 1999 – 2004: Doctor of Philosophy, Electrical Engineering
University of Southern California, Los Angeles
- 1968 – 1971: National Science Foundation Predoctoral Fellow, Microbiology
University of Michigan, Ann Arbor
- 1967 – 1968: Undergraduate Research Associate
Argonne National Laboratory, Biomedical Division
- 1965 – 1968: Bachelor of Science (Biology, Chemistry)
Wheaton College (IL)

Current Research

- Molecular dynamics simulations of biomolecular structures in electric fields.
- Response of biological systems to ultra-short, high-power, low-energy (perturbative) electric pulses.
- Engineering of nanoscale structures (carbon nanotubes and semiconductor nanocrystal quantum dots) for use as environmental monitors (temperature, pH, small and large molecule concentrations).
- Development of experimental pulsed power systems and nano- and microfabricated electrode chambers and microfluidic assemblies for fundamental investigations in molecular biology and cellular physiology and for applications in medical diagnostics and therapeutics.
- Direct interfacing of cellular and tissue-level biological systems with CMOS integrated circuits built in standard commercial technologies.
- Methods for measuring the thickness of semiconductor process layers and extraction of Young's modulus for standard CMOS fabrication technologies.

Professional Experience

- 2006 – : Research Associate Professor, Engineering Manager
MOSIS, Information Sciences Institute and
Department of Electrical Engineering
University of Southern California, Los Angeles
- 2004 – 2006: Research Scientist, Engineering Manager
MOSIS, Information Sciences Institute and
Department of Electrical Engineering
University of Southern California, Los Angeles
- 1987 – 2004: Semiconductor Test Engineer, Engineering Manager
MOSIS, Information Sciences Institute
University of Southern California, Los Angeles
- 1977 – 1987: Senior Electronic Technician
Oliver Advanced Engineering, Los Angeles
Amdahl, Communications Systems Division, Los Angeles
Honeywell, Test Instruments Division, Denver, Los Angeles
Lear-Siegler, Environmental Technology Division, Denver
- 1974 – 1977: Secondary School Science and Mathematics Teacher
Lamar High School, Houston

Publications and Presentations — P. Thomas Vernier
