Call For Papers

The 9th IEEE International Conference on Biometrics: Theory, Applications, and Systems (BTAS 2018) will have a broad scope. The conference invites research in the areas of advanced biometric technologies, feature extraction and matching algorithms, performance evaluation and biometric security, evaluation of the social impact of biometrics technology and other emerging trends in biometrics research. All submissions must clearly articulate the novelty of the work. Submissions will be peer-reviewed by a double-blind process.
